

Ultimate Lyme and Auto-Immune Support

Advanced Cellular Technology Delivers the power of each ingredient in the most effective manner possible; achieving maximum results without stomach discomfort or side effects. No capsules or pills, Results RNA Extra Strength Intra-oral sprays are immediately absorbed, simple to take, and have a pleasant taste. Just spray, swish, and swallow.

ACS 200 Extra Strength Nano Silver Broad-Spectrum ACS 200 Extra Strength achieves 99.9999% (complete) kill against *Borrelia burgdorferi*, and co-infection microorganisms Powassan virus, MRSA and more without harming healthy flora or damaging human tissue. Results are fast acting and safe. Prescribed by Lyme literate doctors worldwide.

ACZ Extra Strength Nano Zeolites Maximum Detoxification Pathogens such as Lyme associated *Borrelia burgdorferi* require a toxic host to survive. Boost your immune system and achieve long term health by cleansing your body of immunocompromizing toxic heavy metals and more.

ACG Glutathione Extra Strength The King of Antioxidants Neutralizing free radicals and reactive oxygen compounds, increased glutathione enhances every system of the body, including the immune system and metabolism; optimizing healthy recovery.

ACN Neuro Extra Strength Neurological System Rejuvenation ACN Neuro Extra Strength effectively reduces neurological manifestations associated with Lyme disease. Results are fast acting and safe.

Ultimate Lyme Support Protocol: The Ultimate Lyme Disease Support system heals and rejuvenates while minimizing herxheimer reaction.

Directions for Use: Take 12 sprays of each formula twice daily for heightened support, or 6 sprays of each formula twice daily for health maintenance.

Take each formula individually by mouth, swish and then swallow. The formulas can be taken in any combination without waiting in between dosing and can be taken with food or without, at any time of the day. Always remain well hydrated when taking the sprays.

There are rarely any side effects experienced when taking the Results RNA formulas at the standard or higher dose. There are no contraindications when taking with antibiotics. Regarding patients who are in a very weak state of health, it is sometimes best to begin with a smaller dose and increase the dose over time.

2 oz formula: Provides 30 days of support when administered at the standard dose (suggested use 6-12 sprays, twice daily).

4 oz formula: Provides 60 days of support when administered at the standard dose (suggested use 6-12 sprays, twice daily)

ACS 200 Extra Strength Silver: Anti-bacterial, Anti-viral and Anti-fungal acsACS 200 Extra Strength is the only antimicrobial proven to kill *Borrelia burgdorferi* and co-infection agent Powassan virus. The leading silver-based supplement, ACS 200 achieved 99.9999% (complete) kill against *Borrelia burgdorferi* in less than 8 minutes as determined by independently-derived, in vitro, benchmark kill-time studies. This data provides the scientific basis for using ACS 200 as an effective anti-*Borrelia* agent. In the clinical setting, many practitioners currently prescribe ACS 200 to their Lyme patients with excellent outcomes.

Dr. Burgdorfer described similar in vitro testing results using a silver preparation. He surmised that silver disables the enzyme(s) used by bacterial, fungal and viral agents for their oxygen metabolism causing them to suffocate upon contact. There have been reports of elimination of late-stage Lyme symptoms using ACS 200 Extra Strength. *(note: this extra-strength Silver contains 350 mg. of nano-silver, much more than the regular 10 ppm Colloidal Silver products)*

ACZ nano Extra Strength Zeolites: Remove Toxic Heavy Metals, Reduce Herxheimer effect. Most sufferers of Lyme disease suffer from toxicity of heavy metals. Heavy metal toxicity suppresses immune function and prevents healing. A powerful oral detoxification agent, ACZ nano selectively and irreversibly binds and excretes toxic heavy metals, such as Mercury and Lead, chemical toxins, radioactive toxins and free radicals via the urinary tract, without removing vital nutrients. These results have been verified in multiple, independent urine challenge studies. Removing damaging toxins is vital for Lyme sufferers if health is to be restored.

As ACS 200 kills the Lyme-associated *B. burgdorferi*, various toxins are released and can cause a “die-off” or “herxheimer reaction”. **ACZeolite nano Extra Strength** mitigates typical die-off reaction by binding toxins and sub-particles released from the dying Lyme organisms. ACZ nano also increases alkalinity by binding free radicals and acids. Tissue alkalinity is required for the body to heal, especially the neurological system in people affected by Lyme disease.

ACG Glutathione Extra Strength intra-oral spray is an important breakthrough in GSH supplementation. Previously, the only effective route of administration was IV and very expensive. Independent clinical research has demonstrated an increase of intracellular levels of GSH by over 10% after only 7 hours of intra oral administration of ACG Glutathione.

Glutathione (GSH) is the most important intracellular anti-oxidant of the entire body: protecting, healing and rejuvenating ACGSH is especially important for brain cells and other components of the nervous system at risk for damage from the highly toxic Lyme organism, *B. burgdorferi*. The tri-peptide, Glutathione is the most important anti-oxidant in the body. GSH prevents damage to important cellular components caused by reactive oxygen species, such as free radicals and peroxides. Low Glutathione levels are proven to make us susceptible to chronic illness. The latest research shows that nearly all chronically ill patients suffer from Glutathione deficiency.

ACNNeuro Care Extra Strength: Neurological System Rejuvenation

Lyme disease can cause significant neurological issues, resulting in migraine headaches and severe brain fog to name a few. Neuro Care Extra Strength improves memory, alertness, improves mood, cognitive performance, psychomotor functions and mental clarity and increases cerebral blood flow; reduces mental anxiety and stress; specifically on brain cells. **Neuro Care Extra Strength** also reduces neuro-inflammation, acts as a neuro-protector and affects the central nervous system.
